REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art teaches altering a deposition condition for a plurality of burners during the course of a vapor deposition process for depositing glass particles onto a starting member. Furthermore, the prior teaches making these alterations during the turning point in a reciprocating motion of the burner movement. However, the prior art fails to teach altering the condition at least twice for each of the plurality of burners such that the interval between adjacent burner positions where the condition is altered is shorter than the interval between adjacent burners. That is, the distance each burner has traveled between positions at which condition(s) are altered is shorter than the physical distance between two adjacent burners.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to QUEENIE DEGHAN whose telephone number is (571)272-8209. The examiner can normally be reached on Monday through Friday 9:00am - 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571-272-1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
